

## ARIC MANUSCRIPT PROPOSAL FORM

Manuscript #011a

1. Title (length 26):

Hemostasis-Wall Thickness

2. Writing Group (list individual with lead responsibility first):

(lead) Folsom           Shahar  
      Wu                Davis  
      Conlan

3. Timeline:

Analysis: Fall 1991. Draft: January 1992.

4. Rationale:

Manuscript #011 addressed this topic in cases/controls. This paper would use Visit 1 data to look at the cross-sectional association of hemostatic factors with wall thickness in the entire cohort.

5. Main Hypothesis:

Hemostatic factors will be associated with wall thickness.

6. Data (variables, time window, source, inclusions/exclusions):

Visit 1 data. Independent variables: six hemostatic factors. Dependent variable: wall thickness. Covariates: based on ARIC Ms. #010, factors related to hemostatic factors and wall thickness.
